McCarthy Offers To Be Grilled By Army Lawyers

By G. MILTON KELLY
WASHINGTON (AP)—Sen. McCarthy (R-Wis.) offered today to let Army lawyers cross-examine him under oath when his investigations subcommittee probes his battle of charge and counter-charge with Army officials.

"The Army should be entitled to have a lawyer cross-examine me and all adverse witnesses," he said in an interview. Under present rules only committee members and staff may cross-examine, though others may suggest questions.

The Wisconsin senator has agreed to stand aside as chairman while the subcommittee looks into Army charges that McCarthy and his chief counsel Roy Cohn tried to apply improper pressure to get special treatment for G. David Schine, a former unpaid subcommittee consultant who now is an Army private at Camp Gordon, Ga.

To be probed at the same time are McCarthy's and Cohn's countercharges that Secretary of the Army Robert T. Stevens and John

Mother, 21, Beats Baby To Death

SPRING CITY, Pa. (AP)—Police said today a young mother, charged with homicide, told them she beat her 9-month-old daughter to death because she was "mad at it."

Police Chief John Hanebury said Mrs. Phyllis Seeley, 21, who lives in a local trailer camp, called a taxi to give herself up after the beating.

He said he accompanied her to her trailer home and found the baby, Dawn, still alive. The child died six hours later in a hospital.

Police said the infant apparently had been beaten over the head with a hammer. A necktie was knotted around her neck. Hanebury also said Mrs. Seeley told him she knocked the child's head against a wall of the trailer because her crying made her "nervous."

Another daughter, about 2, was found unharmed in the trailer. Mrs. Seeley's husband Richard was at work at the time.

Yelling Reds Resume Attack In Indochina; Losses In Thousands

By LARRY ALLEN

HANOI, Indochina (AP)—French Union defenders of Dien Bien Phu, scything down attack after attack, appeared today to be well on the road to a big victory over the Communist-led Vietminh.

Rebel artillery opened another bombardment in the five-day battle for the strategic plain in the mountains of northwest Indochina and it may be the prelude to another mass infantry attack tonight. But American-supplied French guns responded shot for shot and the mass attacks so far—according to a conservative French army estimate—have cost the rebels 3,000 killed. Along with those killed, it is estimated 9,000 have been wounded.

That makes 12,000 men out of action—the strength of a Vietminh division—and about a fourth of the total forces Vietminh Gen. Vo Nguyen Giap has committed to the battle.

The garrison—Frenchmen, Foreign Legionnaires, Algerians, Moroccans, Vietnamese and friendly Thai tribesmen—was outnumbered about 4-to-1 at the outset Friday. It has suffered losses described as appreciable, but is receiving reinforcements by air.

There seemed a good chance that the Vietminh were not going to succeed in smashing this French stronghold in the Thai tribal country at the border of Viet Nam and Laos.

Ruling Pakistan Party Defeated

DACCA, East Pakistan (AP)—Early results in the election for East Pakistan's Assembly today indicated a landslide victory for the opposition bloc which wants to slip loose the ties with the central government more than a thousand miles across India from here.

The five-party opposition front scored a major upset by defeating Chief Minister Nurgul Amin, 50, a leader of the ruling Muslim League party of which Pakistan's Prime Minister Mohammed Ali is top man. He was beaten by 6,607 votes by a young college student, Khaliz Nawaz Khan.

The incomplete results gave the opposition 51 and the Muslim League party only 2 of the seats in the 309-member Assembly. Final results are not expected before March 25.

The setback to the league appeared to pose a serious threat to the national government, not only in East Pakistan but also in its control of the Pakistan National Assembly and perhaps even in the national government itself.

Chicago Irish Club Hears Sen. McCarthy At Dinner Tonight

CHICAGO (AP)—Sen. McCarthy (R-Wis.) speaks to the Irish Fellowship Club at a St. Patrick's Day dinner tonight and special security measures have been taken to prevent any undue interruption.

The club's president, Walter F. Mullady, said several policemen in plain clothes will be among the more than 1,200 guests at the dinner in the Palmer House.

"They'll stop any disturbance," Mullady said, "although we don't anticipate any, and prevent any interruption of Sen. McCarthy's talk."

McCarthy's speech will be broadcast over the Mutual network (9:30 p.m., CST).

Dien Bien Phu is not a fortress in the conventional sense—most of its defenses are below ground behind mazes of barbed wire. But it is a heavily fortified area.

The French took advantage of a momentary enemy withdrawal to pour reinforcements. Tanks and infantry sallied forth to counterattack.

The rebels, badly mauled after four days of suicidal attempts to take the 4-by-6 mile plain, its command post and two air strips, pulled back momentarily in a heavy rain Tuesday after driving to within half a mile of the center of the fortress. Then they resumed their assaults from the hills ringing the plain.

French fighters and bombers poured rockets, thousands of pound bombs and machine-gun fire into enemy positions surrounding the fortress.

The French expressed complete confidence they could continue to hurl back with withering curtains of heavy firepower from American-supplied guns the wave after wave of screaming rebels sent into the biggest battle of the seven-year-old Indochina war.

The French gave no figures of their own casualties, but said their losses have been "appreciable."

President Explains Military 'New Look'

By JACK BELL

WASHINGTON (AP)—President Eisenhower said today any president ought to be impeached or even hanged if he did not act immediately if the country were attacked by an aggressor.

The President told his news conference the "new look" military program which has been under attack by some Democrats represents the best efforts to use modern weapons and to conserve manpower in any war that might break out.

British Inn Has Party For Ghost

HOLYWELL, England (AP)—They're tossing a party at the Ferry Boat Inn tonight for a woman who, if she exists, is 923 years old.

The ghost, known as the "White Lady of Holywell," is reputed to have haunted the inn since the middle of the 11th century.

Traditionally, she appears at midnight each March 17.

A. D. Cornell, of the Society for Psychic Research, claims he talked with her last year. She told him, he said, that her name was Juliet Tousey and that she hanged herself in 1050, at the age of 19, because of an unhappy love affair with a woodcutter named Thomas Zoul.

Cornell and eight other members of the society will be waiting for her tonight.

If she shows up, they will go into action with a battery of infrared cameras, a tape recorder and a spectroscopic. They want to find out what little girls are made of when they're nine centuries old.

Landlord Jack Rodd arranged to stay open and serve drinks for an extra hour.

Bill To Create Permanent Chief Justice Held Up

LANSING (AP)—Legislation creating a permanent chief justice of the Michigan Supreme Court has passed both House and Senate—but an inter-chamber dispute over one amendment must still be ironed out.

The Senate passed the bill Tuesday without a vote to spare and sent it back to the House for concurrence in an amendment to withhold effect of the measure until Jan. 1, 1955.

Post Now Rotated
Sen. Haskell L. Nichols (R-Jackson) said frankly the amendment was attached so that Associate Justice Leland W. Carr would not be deprived of the honor of being chief justice in the year before he seeks reelection.

Under present law, the chief justiceship is rotated annually, going to the justice whose term is about to expire.

The Senate accepted a House amendment and sent to the governor a bill permitting Detroit Edison Co. to buy 88 acres of submerged land at Harbor Beach as the site for a \$60 million power plant project.

The amendment specifies the property must be sold for \$18,000, the amount offered by the company, or at the appraised price fixed by the State Tax Commission, whichever is higher.

School Aid Vote Today
The House advanced for final vote today the school aid bill appropriating \$116,857,272 for public schools in the 1954-55 year. The total compares with \$106,333,576 this year.

Increased enrollments, however, will hold individual shares to \$150 per child in elementary schools and \$170 in high schools, the same amounts as this year.

The lower chamber passed a Senate bill requiring those sentenced to less than a year to be held in county jails instead of in state prisons.

House debate was scheduled today on a bill to give full unemployment compensation benefits to Great Lakes seamen.

Political Hatchet Buried In Ireland For Patrick's Day

By JAMES F. KING

DUBLIN, Ireland (AP)—St. Patrick's Day came to the Irish Republic today on the brink of a general election—but the politically minded Irish who like to be different forgot politics.

It's an old Irish custom to bury the political hatchet on the national holiday.

Even that old fighter for Irish freedom, Prime Minister Eamon de Valera, was away in London for the "blessing of the shamrock" among the British who once condemned him to death.

All Bars Closed
There's no "drowning the shamrock" here. All bars are closed on St. Patrick's Day.

And for uttering a begorra it's the back of the hand to you — comedian stuff in the new Ireland and frowned upon.

The Emerald Isle of many farms celebrates instead with a parade showing off tremendous strides in industrial development.

De Valera—still a formidable campaigner even though 71 and nearly blind—decided to go to the people after his Fianna Fail party suffered setbacks in special elec-

State Pay Raise Order Rejected By Legislators

LANSING (AP)—There will be no money for a pay raise for state employees, despite a State Civil Service Commission order, unless it is recommended by Gov. Williams and the budget office, Sen. Elmer R. Porter (R-Blissfield) declared today.

Porter, chairman of the Senate Appropriations Committee, attacked the commission for suddenly popping the pay raise at the Legislature when, as he said, the legislative committee "have the budget all balanced."

The commission estimated the pay raise might cost \$6 million a year, but Porter said it might go to \$10 million.

"It has always been the policy of our committees," Porter said, "to receive no requests for money unless they come through the budget office and with recommendation of the governor. We are going to continue to follow this."

Porter said the civil service action confronts the Legislature "with a lot of red ink and maybe more taxes."

Sen. George N. Higgins (R-Fernside), chairman of the Senate Taxation Committee and a candidate for the Republican nomination for governor, leaped up shouting, "There'll be no new taxes in Michigan this year."

Fruit Spray Strikes Down Three Children

TURLOCK, Calif. (AP)—A dangerous fruit spray chemical known as tepp, which paralyzes respiratory organs after entering through the skin, has struck down two more children—killing 2-year-old Glenn Kumimoto and making his sister Elle, 4, seriously ill.

And the life of 6-year-old Michael Ogden still hung in the balance at a Hood River, Ore., hospital where he was rushed after spilling some of the chemical on his legs Saturday.

The Kumimoto children, playing in a barn on their father's ranch, used some of it to make mud pies Monday.

Pope Gets Stronger

VATICAN CITY (AP)—Pope Pius slowly returning strength has enabled him to increase his hours of work and extend his walks in the Vatican apartment, it was reported today. The 78-year-old head of the Roman Catholic Church has been confined to his apartment for the past few weeks, suffering from an ailment that has been tentatively diagnosed as gastritis.

House Heads Into Battle Over Income Tax Cuts

LANSING (AP)—Only veiled confirmation could be had today of reports that state Republican leaders have instructed the House of Representatives to kill fair employment practices legislation and a bill tightening controls on lobbyists.

Both bills were narrowly approved in the Senate last week. It was confirmed that House leaders met with state Republican Chairman John Feikens.

This was coupled with persistent reports that the word went out to the House State Affairs Committee, which has both bills, to kill them.

Chairman Eugene C. Betz (R-Monroe) is frank in his opposition to the FEPC bill, and he has been decidedly lukewarm on the lobbyist measure.

The FEPC bill would set up a commission to mediate cases where there are allegations of discrimination in employment because of race.

The lobbyist bill would require monthly reports of expenses by lobbyists and set up a permanent legislative committee to police their activities.

Judge Investigates Gambling Graft Of Detroit Policemen

DETROIT (AP)—A hastily ordered one-man grand jury took over an investigation of suspected gambling graft in Detroit's police department today.

Hard upon the suspension of 13 officers, the investigative job was turned over by the recorder's (criminal) court bench to newly elected Judge John P. O'Hara.

Judge O'Hara, in office only since Jan. 1, undertook a task of exploring official charges that the 13 officers "openly condoned" commercialized gambling and that some actually participated in numbers rackets.

Over 50 Involved?
The charges were brought Tuesday by Prosecutor Gerald K. O'Brien. The officers' suspensions followed immediately.

Indictments may ensue. It was rumored that more than 50 policemen ultimately might be involved. The officers' suspensions followed secret raids on three gambling

Huge Narcotics Ring Smashed In Chicago

CHICAGO (AP)—A multi-million dollar narcotics ring believed to have been the main source of supply for addicts in the Chicago area was smashed Tuesday night, Albert E. Aman, head of the federal narcotics unit announced today.

Aman said the arrests of seven men have broken up the ring and he predicted a panic among addicts of this area.

Aman said the ring did an annual business of around 10 million dollars. He estimated the gang's minimum weekly take from heroin sales was \$168,000.

The government has spent at least six months and has bought narcotics as evidence against a ring which Aman said was headed by Anthony Pape, 40.

Those arrested were listed as Frank (Shorty) Coduto, 46, an unemployed construction worker; Joe Iacullo, 34; Anthony Ponz, 44; Anthony (Dodo) Schullo, 44, and Roy Pinna, 42.

School Theft Ring Suspects Arraigned Before Detroit Judge

DETROIT (AP)—Three men, accused of belonging to a Detroit area school theft ring, waived examination Tuesday on charges of armed robbery in Recorder's Court.

James Anglin, 25, David Rohde, 21, and Donald Ketterer, 25, were ordered held for trial by Judge Paul E. Krause. Bond was set at \$10,000 each.

Police said \$4,760 in cash was taken by a ring that broke into Denby, Redford, Southwestern, Central, Pierce Junior High in Grosse Pointe Park, and Lincoln and Fitzgerald (both in Warren township) schools.

State GOP May Kill FEPC And Lobby Curb Bills

LANSING (AP)—Only veiled confirmation could be had today of reports that state Republican leaders have instructed the House of Representatives to kill fair employment practices legislation and a bill tightening controls on lobbyists.

The charges were brought Tuesday by Prosecutor Gerald K. O'Brien. The officers' suspensions followed immediately.

Indictments may ensue. It was rumored that more than 50 policemen ultimately might be involved. The officers' suspensions followed secret raids on three gambling

establishments which police said were run by notorious numbers racket operators.

Payoffs to some officers were alleged. No sums were named. At the same time all the suspended men denied wrongdoing.

First Since 1939
This was the first charge of scandal in Detroit's 4,000-man police department since the 1939 corruption exposure which shook the city.

A one-man grand jury investigation by the then judge and present U. S. Sen. Homer Ferguson (R-Mich) led at that time to prison terms for the late Mayor Richard Reading and numerous other public officials and policemen.

The present allegations, however, do not indicate a scandal of any such extent. Police Commissioner Donald S. Leonard said this is a "limited investigation." He indicated it did not compare with the 1939 probe.

President Too Timid Now, Barkley Thinks

JACKSON, Miss. (AP)—Former vice president Alben Barkley thinks that when farmers get the chance "they will do it like politically what he has been doing to them economically."

Barkley also told a Jefferson-Jackson Day dinner Tuesday night that if President Eisenhower "had been as timid in Europe as he has been in the White House, we would have lost World War II."

Barkley told a news conference he thought the Democrats would regain control of Congress in this year's election.

Democrats Push \$100 Increase In Exemptions

By CHARLES F. BARRETT

WASHINGTON (AP)—President Eisenhower said today that congressional Democrats are in error in contending that the administration's new tax bill does not give a fair share of relief to those in the lower income brackets. He commented at a news conference as the House headed into a battle over a Democratic drive for new income tax cuts for everybody.

Up for debate was a giant, 875-page bill overhauling almost all tax laws and providing about \$1,397,000,000 in revenue reductions the first year. The vote is scheduled Thursday.

Opposed By President
The overshadowing issue is a Democratic move to tack onto this bill a \$100 increase in individual income tax exemptions for each taxpayer and each dependent—a further tax cut of \$2,400,000,000 a year, strongly opposed by President Eisenhower.

Rep. Mills (D-Ark), chairman of the conference of House Democrats and a veteran member of the tax-writing Ways and Means Committee, said "I feel certain the Democratic motion will pass."

But House Speaker Martin (R-Mass) just as staunchly predicted Republicans would beat the Democratic move and the House would pass the GOP-sponsored revision bill as it now stands.

Appeal On Air
Secretary of the Treasury Humphrey appears before the Senate Finance Committee today to oppose another tax cutting bill, one that would trim to 10 per cent most federal excise, or sales, taxes now above that rate.

Secret Explosion Burns Fishermen

By JIM BECKER

TOKYO (AP)—The United States today offered top-flight American medical aid to 23 Japanese fishermen burned and blistered by ashes from a supersecret U.S. test blast in the Pacific.

U. S. Ambassador John Allison also proposed a joint Japanese-American investigation of the March 1 incident in the Bikini-Eniwetok test region.

Four crewmen are on the serious list but doctors said they expect all 23 will live.

The intensity of their burns—skin blackening and hair falling out—and their story of the blast stirred speculation that the March 1 test may have been a thermonuclear (probably hydrogen) explosion. The crewmen's reports indicate they were about 80 miles from the blast center.

Japanese officials say they will ask compensation for the victims.

In Washington, Rep. W. Sterling Cole (R-NY), chairman of the Senate-House Atomic Energy Committee, said it was possible the fishermen were spying but said he has no official report.

"We don't know whether the fishermen were in the area deliberately or accidentally," he said.

Time Bomb Explodes In Men's Room Of New York Terminal

NEW YORK (AP)—A home-made time bomb exploded at the peak of the evening rush hour in Grand Central Terminal Tuesday, causing a great deal of excitement and one minor injury.

The bomb went off in the lower level men's washroom, knocking down a marble partition. Police found remains of the bomb, a timing mechanism and a length of 1 1/4 inch pipe.

Police said about 35 men were in the room at the time. One had a minor cut on his foot, a policeman said.

Talent Show To Be April 27

The first Escanaba Junior Chamber of Commerce talent show and contest, open to all residents of Delta County, will be held in the William Bonifas Auditorium in Escanaba Tuesday night, April 27, it was announced yesterday by Dr. A. A. Gossan, general chairman.

"Applications are now being taken by Al Lord, audition chairman in preparation for the first audition to be held at the Delta Music Center Wednesday, March 31," he said.

"All persons desiring to enter are asked to get in touch with Al Lord without delay. We want singers, dancers, musicians, humorists, comedians or anyone who can entertain to enter this contest. Dramatic skits, acrobatic acts or any entertainment is what we are looking for to make this an all-around good show."

Dr. Gossan said that any number of persons may be in any particular act on the show. In addition to Escanaba, he particularly urged residents of Gladstone, Rapid River, Bark River, Cornell or any community or rural area in the county to enter.

The winner of the contest will represent Delta County in the Upper Peninsula State Fair amateur talent contest and also will be a guest star on the Karas Memorial Show May 4 and 5.

The Escanaba Barber Shop singers will appear on the program April 27 as guests.

A panel of judges will preside at the audition and also at the show in the Bonifas auditorium. Every contestant will receive a prize and cash awards will go to the first three place winners.

U. P. Conference Of Assessors Here March 26 and 27

A conference, designed to be particularly helpful to township supervisors, municipal assessors and others interested in the placing of valuations on property, will be held in Escanaba at the House of Ludington Friday and Saturday, March 26 and 27.

The meetings will be under the direction of the University of Michigan with the cooperation of the State Tax Commission, the Michigan State Association of Supervisors, the Municipal Assessors' Association of Michigan and the National Association of Assessing Officers.

The conference is for interested persons from all parts of the Upper Peninsula.

Some of the topics scheduled for discussion are:

1. Types and Valuation of Land.
 - (a) Cut-over lands.
 - (b) Mining properties.
 - (c) Farm lands.
 - (d) Resort properties, motels, cabins.
2. Elements in appraising real property.
3. Standardization of assessing procedures.
4. Personal property.
 - (a) Stores, chain stores, etc.
5. Maintenance of good county tax records of descriptions and appraisals.

Some of the experts who will be present will be Walter Lahde, City Assessor of Grand Rapids; James D. McNaughton, assessor-manager of Alma, Mich.; E. Sheldon Markle, director of Field Administration, State Tax Commission; and Edward W. Kane, State Tax Commission.

The conference will begin on Friday morning, March 26, and will finish Saturday noon, March 27. It will be held at the House of Ludington in Escanaba. Anyone who is interested in the subject matter of the conference is eligible to attend.

Inquiries concerning the conference should be directed to the University of Michigan Extension Service, Junior High School Building, Escanaba. Phone 2129.

City Election:

Submit Three Ballots To Escanaba Voters April 5

Escanaba voters on April 5 will have three ballots placed before them, according to City Clerk George Harvey.

The election of two city councilmen and a justice of the peace; an advisory vote on the question of fluoridating city water; and a proposal to increase taxes by 2 mills is scheduled for the city election.

There will be two seats at stake on the City Council. The terms

of Councilmen Ed Cox and Guy Knutson expire this spring. Councilman Knutson is not a candidate for reelection.

The three ballots to be presented to the voters will be as follows:

CITY BALLOT—The names of five candidates for City Council will appear on the ballot: Councilman Ed Cox, seeking reelection; Atty. William E. Anderson; Herbert Carlson; H. Chris Nicholson; and Atty. Harlan Yelland.

The two candidates receiving the highest vote will be elected and will serve four-year terms.

The term of Justice of the Peace Caroline A. Nystrom expires this spring and she is unopposed as a candidate for reelection. The term is for four years beginning July 1.

ADVISORY VOTE—The question of whether the city shall add fluorides to the municipal water supply to prevent dental caries will appear on a separate ballot. The result of the vote will be advisory to the Council.

MILEAGE INCREASE—In Escanaba and in all other units of the county there will be a referendum April 5 on a proposal to increase the tax millage by 2 mills; to be divided as follows and for the following purposes:

1 mill to the Delta County Road Commission for rehabilitation and restoring of Delta County bridges.

½ mill to Delta County for county operation and government.

½ mill to Delta County school districts for operation.

The proposed 2 mills tax increase represents \$2 per \$1,000 of the assessed valuation as equalized, and the increase would be in effect for a period of five years, 1954-1958 inclusive.

Some Cloudiness; Winds From Lake

Some cloudiness and winds off Lake Michigan will have effect upon local weather conditions but thawing temperatures will prevail throughout today and tomorrow with even the night's temperature readings about 30, says S. E. Decker, of the Escanaba Weather station.

Yesterday's sunshine caused a rise to 44 about four o'clock but a shift of the wind from the south brought a breath from the remaining ice fields with the result that by nightfall there was a drop to 35, and was 20 about 7 this morning.

The general picture throughout the country, says Decker shows a generally fair condition throughout the eastern two-thirds of the country.

This morning's surface weather chart shows generally high pressure over the eastern states with a vigorous storm centered over the Rocky Mountain plateau. Strong southerly winds over the high plains sent temperatures rapidly upward yesterday, but at the same time dust storms again raged in some areas from South Dakota to Texas. Visibility at Lamar, Colo. was down to zero at times.

In western Kansas, dust has been reported to an altitude of nearly ten thousand feet. Even early this morning, dust restricted visibility to less than one mile in the North Platte Valley of western Nebraska, although only light winds prevailed at the time.

Briefly Told

Plumbers' Union—The regular monthly meeting of the Plumbers and Steamfitters Union 506 will be held Thursday at 7:30 p. m. at Carpenter's Hall.

Pick Up Skates—The owners of skates which were not sold at the skating center, Club 314, are requested to pick up their skates within the next week. Club 314 will not be responsible for them after March 26.

Delta Lodge Meets—Regular monthly meeting of Delta Lodge No. 195, F. and A. M., will be held Thursday, March 18, at 7:30 p. m. at the Masonic Temple. A cordial invitation is extended to visiting Masons.

Rummage Sale Saturday—A rummage sale, sponsored by the Ford River Lions for the benefit of the Community Building fund, will be held at the Ford River Town Hall Saturday, March 20, beginning at 1 p. m.

Motorist Ticketed—Escanaba police have issued traffic violation tickets to the following motorists: Lawrence Maynard, Bark River, defective muffler; William E. Cox, 213 S. 19th St., defective tail light and defective exhaust and muffler.

Barbershoppers On Air—The Bay de Noc Barbershop Chorus, SPEBSQSA, will make a tape recording of songs for future radio broadcast at their meeting Thursday night, and director Sam Ham has asked that all members of the chorus be present. The rehearsal will start at 8:30 p. m. sharp and the radio recording will follow.

Taken In Custody—Harold E. Fuhrman, 28, of Mauston, Wis., was arrested by Escanaba Police here this morning and is held for Mauston police on a warrant charging carnal knowledge and abuse. Fuhrman, who told police he was a grocery store owner at Mauston, had trucked a load of vegetables to Escanaba. He waived extradition and will be returned to Mauston for arraignment.

Fine And Jail Sentence Given Resident Of Rock

MARQUETTE—Harold LaBelle, 23, Route 1, Rock, is serving a 10-day sentence in the Marquette County jail for drunk driving.

LaBelle pleaded guilty to the charge when arraigned before Judge Edward H. Dembowski in municipal court. He was arrested by state police from the Marquette Post at 10:50 p. m., March 12 on Highway M-35 in Forsyth Township.

Judge Dembowski also ordered LaBelle to pay a fine of \$50 and court costs of \$5.35 or serve an additional 15 days in jail.

In addition, LaBelle had his operator's license automatically revoked by the secretary of state office for a period of three months to two years.

Decision Delayed On Senior Ball; 9 Are Suspended

Officers of the Senior Class of the Escanaba High School appeared before the Escanaba Board of Education last night to request permission to conduct the Senior Class Ball on April 30 but the Board withheld a decision pending the completion of an investigation of disturbances at Houghton last weekend during the regional basketball tournament in which local high school students were involved.

Nine high school students have been suspended from classes this week as a result of the investigation made thus far by school officials, Supt. John A. Lemmer informed the Board of Education.

The investigation is continuing, it was reported.

The class officers submitted a proposed list of rules for the Senior Ball. They include a provision for parental consent for attendance at the Ball and parental consent for out-of-town driving after the dance.

Hold Boat Handling Class Here Tonight

Another in the series of weekly classes in boat handling, sponsored by the Escanaba Yacht Club, will be held at 7:30 tonight at the home of instructor Frank St. Martin, 323 S. 10th St.

A review of previous instruction and a class in knot tying is scheduled tonight. Children of EYC members and other interested persons are invited to attend the classes.

MARQUETTE—Prediction that the state Legislature next year will appropriate \$1,400,000 for construction of a physical education plant (field house and gymnasium) at Northern Michigan College of Education, Marquette, was made this week by State Senator Joseph P. Cloon, of this district. Cloon advises that an appropriation of \$56,000 to pay for plans for the proposed project had been recommended by the appropriations committee of the Senate and put into the state budget for institutional buildings.

IRON RIVER—Six instruments costing \$1,800 and collapsible risers estimated at \$800 were purchased for the Iron River high school band by the board of education. On the recommendation of Vilas Wensel, director, the board authorized the purchase of two bass clarinets, two alto clarinets, a baritone saxophone and a clavichord, the latter a type of solovox unit.

IRON MOUNTAIN—Dr. Joseph M. Bottkol, son of J. A. Bottkol, 804-7th Avenue, is one of two members of Mount Holyoke College English department of South Hadley, Mass., who have been promoted to the rank of full professor. Dr. Bottkol returned last June from Italy where he spent two years studying on a Fulbright grant. During this time he discovered a letter in the Barberini archives written by John Mil-

ton, 17th century English poet, in 1659. A specialist in classical literature and the English Renaissance, Dr. Bottkol wrote his Ph. D. dissertation at Harvard University on "Dryden's Translation of Classical Verse."

Menominee Hoids Marquette Parolee For Gun Toting

MENOMINEE—Peter Tonia, a parolee from Marquette branch prison who has been living here for the past several months, was scheduled to be arraigned before Municipal Judge Wilfred J. Hupp this afternoon on charge of carrying a pistol without a license.

City police arrested Tonia last night as he left a local tavern where earlier he was reported to have brandished the gun, a .32 calibre revolver. When arrested, police found the gun, fully loaded, on his person.

Fat Bonus Proposed For Men To Re-enlist

WASHINGTON (AP)—Adm. Arthur W. Radford, chairman of the Joint Chiefs of Staff, disclosed that the Pentagon may offer a juicy cash bonus to anyone who wants to re-enlist in the armed forces.

Noting that Pentagon officials are disturbed about the drop in re-enlistments, Radford said in an interview that a program to add incentives to keep people in the armed forces would be submitted to Congress next month.

Among the ideas being considered, he said, was offering a cash bonus far in excess of the \$300 now given to those who re-enlist—perhaps \$2,000.

Holds Car; Saves Boy

DETROIT, March 16 (AP)—To 86-pound, 5-foot-2 Mrs. Gloria Fair it was hardly believable that she had that much muscle.

Mrs. Fair, 35, held back a driverless car rolling down her driveway Monday to keep it from crushing 5-year-old Bobby Emerson, a neighbor boy. One rear wheel already had started over his body.

Bobby was unconscious when removed but revived and was found not badly hurt.

"I can't believe it," Mrs. Fair said of her feat.

Advertising Council Ready To Launch 'No Slump' Drive

THE newest crusade which the Advertising Council is preparing to unleash on the U. S. public has for its theme the slogan, "Opportunity Unlimited."

The idea, according to the Council's President Theodore S. Reppel of Washington, is to unseal the pessimists on a belief that 1954 is going to be a year of depression. The contrary opinion is that 1954 will probably be the second best year the U. S. ever had.

By newspaper and magazine advertising, by radio and TV spot announcements, by billboards, car cards and every other medium of information that advertising has anything to do with, the idea will be plugged that the United States is still growing and there's nothing to be afraid of.

Depressions often start from psychological factors. If these worries can be overcome and the opportunity for further investment and expansion sold to American business and consumers, the threat of a recession can be rolled back by a rolling readjustment, in the belief of the advertising industry.

The original idea for this morale-building, education-through-advertising campaign is attributed to William C. McKeehan, Jr., of New York. He tried it out on some 200 business leaders assembled in

Washington recently for the tenth annual meeting of the Ad Council Associates. They went for it.

So the idea was next submitted to the 60 Ad Council directors, meeting in New York, for formal approval. The plan is to have the campaign reach maximum intensity in the spring, when economists believe the economic down beat will be felt the worst.

It will be an interesting experiment to watch. It will be well worth noting whether the country can be psyched out of the blues of a business recession by a selling campaign. Or, to use a longer and blunter name for it, by domestic propaganda. For this is, after all, a beneficial application of the old trick of making people believe something by telling them, often and long enough, that it's so.

The success of the Advertising Council in nearly 100 public service campaigns over the past dozen years is proof enough that this is a good technique, and that it works.

Dean Hammers Home Last Word

IT looks like Arthur Dean, our ex-negotiator at Panmunjom, has had the last word on the Communists at that.

A few months ago, Dean walked out of the tent in Korea in a huff, saying he would not return until the Reds retracted charges of "perfidy" lodged against the United States. They never did, and Dean never went back. Recently he gave up the job.

But the other day he had a more pleasant one. As mayor of Upper Brookville, a fashionable Long Island community, Dean presided at a tax sale involving a 38-room home and 15-acre estate owned by the Russians. Their diplomats use the place.

But the Reds won't pay the real estate taxes on the property. They think their diplomatic status should relieve them of this burden. Upper Brookville thinks otherwise. So, with Dean presiding at the auction block, the \$116,850 place was sold for \$544.88 in back taxes.

The Reds have two years to reconsider and pay up.

ROSE THAT CHANGES COLOR (Milwaukee Journal)

The west German government bulletin reports that the east Germans have been told about a new rose bred by Ivan Kovtunko of Moscow, who is a winner of the Stalin prize.

The rose, the report has it, is called "Glory of Peace." And its big feature is that it changes color several times a week. It starts out white and switches to rose-yellow to light brown to light red.

This report the skeptics are inclined to look upon with amusement. But we can't see any thing too unusual about it. Environment does play a part in the development of any living thing. Certainly Communists have learned to change swiftly with any switch or loop of the party line.

Why shouldn't a rose acquire the protective ability to change its hue just in case the official taste in color changes?

SOME SOUVENIR HUNTERS AREN'T AMERICANS (Duluth News-Tribune)

Queen Elizabeth's trip through Australia has been marred by incidents which have a familiar sound. Crowds have been enthusiastic but unruly. Souvenir hunters have proved again to what depths human nature can descend when there's a trophy at stake for some connoisseur's collection.

It makes a sad paragraph in a bright chapter of history.

In reading it and thinking about it, Americans cannot be blamed if they remark to themselves, very softly, that practically none of these incidents can be blamed on Americans.

Merry-Go-Round

By DREW PEARSON

WASHINGTON—Here are some questions which investigating senators may want to ask Messrs. McCarthy, Cohn, Adams, et al, in the current attempt to get to the bottom of the Schine incident. Also here are some of the possible answers.

Question: Why did Senator McCarthy seriously believe that the Army should fear 27-year-old Roy Cohn? What was there that a 27-year-old lawyer could do to an organization that has never been defeated? Why did McCarthy suggest to the Army that it faced a long-range fight with Cohn, if it didn't transfer Pvt. Schine to New York? It's possible McCarthy thought Cohn could throw these influences against the Army, or else he thought the Army could be frightened into thinking so.

Answer: Cohn was on intimate terms with Walter Winchell, and was the pipeline by which McCarthy got Winchell's support and fed Winchell items. Cohn also has contacts with right-wing columnist George Sokolsky and newspaper executive Dick Berlin, who formerly employed Dr. J. B. Matthews, the McCarthy committee counsel who was dropped after he alleged the Protestant clergy was riddled with Communists.

Question: Did Roy Cohn flex his muscles for Walter Winchell by calling James Wechsler, editor of the New York Post before the McCarthy committee after Wechsler printed a series of articles on Winchell.

Answer: Wechsler is the only leading editor ever called before the McCarthy committee. In newspaper circles this crackdown was considered a Cohn move to curry favor with Winchell.

Question: Is McCarthy afraid of Roy Cohn? Why did McCarthy tell the Army to show no favoritism to Schine when Cohn was absent, then reverse himself in Cohn's presence? Why did McCarthy make it clear to the Army he didn't want Cohn to know he considered Schine a pest?

COHN KNEW BURIED BODIES

Answer: Cohn knew all the secrets of the McCarthy investigation. He knew all the bodies buried by the McCarthy committee. He also knew the personal problems, had sat in on at least one conference where McCarthy debated what he should do about the Las Vegas Sun and extraordinary allegations it published regarding his personal life which cannot be repeated here. In brief Cohn knew about all there was to know about McCarthy.

Question: What parts of the Cohn conversations with the Army were censored? The Army's original report on the "Schine case" was about 72 pages long, but only 34 pages were published. What was left out?

Answer: Some of the language used by Cohn was unprintable. Also in cases where John Adams, the Army attorney, or his colleagues felt they might have had hazy memories, the hazy portions of the record were omitted.

EUROPEAN JUNKET

Question: Why the persistent attachment of Cohn for Schine? Why was he almost savage in his demands that Schine be transferred back to New York?

Answer: The two have been inseparable friends for some time.

Schine is 26 years old, had had no important experience as an investigator, served with the McCarthy committee without salary. Cohn liked to have him around, took him to Europe on a trip that would have been comic had it not so disrupted U. S. relations. Reported the Frankfurt Abendpost: During the Cohn-Schine probe of Communism in Bonn "the event occurred which is still the main topic of conversations. At 2:30 Mr. Schine announced he had put on the wrong trousers. A driver was sent to the hotel to pick up the right ones. Mr. Schine put them on, then discovered his notebook was missing. He rushed back to the hotel with Mr. Cohn to look for it.

"In the hotel lobby it was observed that Mr. Schine batted Mr. Cohn over the head with a rolled-up magazine. Then both disappeared into Mr. Schine's room for five minutes. Later the chambermaid found ash trays and their contents strewn about the room. The furniture was completely overturned."

After lunch the two investigators missed the regular plane and took a special plane to Frankfurt. Cost: \$300.

Question: Since every American diplomat reported on the activities of Cohn and Schine, why were they continued on the McCarthy committee? Among other things, they left an unpaid hotel bill in Paris of \$175, though they were in Paris only 16 hours. They ran up this bill by registering at the Crillon, then going to a second hotel without registering out of the Crillon. The American Embassy paid the bill.

Answer: or months, both the Eisenhower administration and Republican senators have either been afraid or unwilling to tangle with McCarthy, even to make suggestions regarding his staff.

Hidden Heroes:

Women Prove Effectiveness In Undercover Work For FBI

By DOUGLAS LARSEN

By NEA Staff Correspondent

WASHINGTON — (NEA) — A housewife, a lady photographer, a model and a grandmother proved to the FBI that American women are courageous and clever enough to do really effective undercover, counter-spy work.

Women were included in hazardous undercover activity when it became apparent that the Communist Party's activity in the U. S. was so broad and integrated that there were many facets of its treacherous operations they could infiltrate easier than men.

Angela Calomiris, a small, dark and vivacious professional photographer, did her work in New York. So did Marlane Kowall, a model and daughter of movie actor Barton MacLane. Their reports to the FBI frequently contained each other's name.

Berenice Baldwin, a grandmother who's now a stenographer for the Army's Ordnance District in Detroit, supplied invaluable information about the CP's concentrated activities in the vital defense industries of the motor city.

Mary Markward, now a Washington suburban housewife, worked in a beauty parlor in 1943 when the FBI asked her to join the Party for them.

Because of the Party's willingness to turn over much of its routine clerical and bookkeeping work to its women members, all four of these women and others, were able to lay hands on huge quantities of official records. These included membership and mailing lists, dues records and other detailed financial information.

They were also able to expose the Party's efforts to subvert women's groups in the U. S. But it was not all accomplished without strain and danger.

The most harrowing experience pretty, petite Mary Markward had was when she was one of only three persons in Washington who knew about a meeting of top Party workers which was going to be held at the Willard Hotel.

Two days later when a colum-

ANGELA CALOMIRIS: A spilled purse almost tripped her.

nist (Walter Winchell-Ed.) reported the details of the meeting she was sure her number was up. Party heads grilled her about it for hours before she convinced them she had nothing to do with the leak, which of course was true.

Mrs. Markward has been able to name more than 200 top Party

members in the Washington area before the House Un-American Activities Committee, expose the activities of 18 Commie fronts operating in the area, and be a key witness in a Baltimore trial of the six top Maryland Commies, which found them guilty under the Smith Act.

She had won a citation from the American Legion for her work.

Miss Calomiris was driving a group of Party big - shots home from a top secret meeting. Her purse, full of notes for her FBI report, fell off her lap and spilled open on the car floor. The Party leader sitting next to her obligingly stuffed them all back and put the purse on Angela's lap.

"If he had read just one word I'd never have gotten home that night," she admits now.

Another night Angela and a male Party member were working circulars. When he stepped out for a moment she quickly opened a file containing a membership list of an important newly-formed front she had been trying to lay her hands on for weeks. Apparently it was a trap be-

cause her companion returned almost instantly, giving Angela only time to stick the list under the stack of papers being mimeographed. As the printing continued they got closer to the list. She was getting frightened.

But when only one sheet covered the list he said, "C'mon, Angela, let's get a beer." She never enjoyed one more in her life, she says.

Miss Calomiris received the Freedom Foundation Medal of Honor in a presentation by Gen. Omar Bradley.

Another discovery these women made was the complete sham behind the Party's promise to give women greater freedom. They learned that woman's reward is nothing but a succession of the most difficult, dirty, routine chores.

For instance, all four of these women were forced to hawk the Party's Daily Worker. Those they couldn't sell they had to pay for. The Daily Worker showed its gratitude for all the papers Mrs. Kowall sold by branding her a "Glamour Stookie" when her role was revealed.

Good Evening...

THE HEAVIEST SMELT — Dr. Ralph Hile, Ann Arbor, of the U. S. Fish & Wildlife Service, reports that a smelt taken from Little Bay de Noc waters at Escanaba is the heaviest on record.

The weight and measurements of the smelt, together with some of its scales, were sent to Dr. Hile by Roy Jensen of the Jensen & Jensen market in Escanaba. The smelt weighed 9 ounces and measured 13 1/8 inches in length.

Dr. Hile in a letter to Jensen reported the fish was the heaviest on record but not the longest. The previous smelt record was a fish 14 inches in length but weighing only 8 ounces.

A study of the scales of the smelt taken at Escanaba also revealed, reported Dr. Hile, that the fish was hatched in the spring of 1948, which would make it six years old this spring.

THE SEASON BEGINS—The story of the smelt has been told many times. From a small beginning with a few fish introduced into an inland lake in Lower Michigan about 30 years ago, they have increased to billions that now populate the five Great Lakes.

Smelt are taken in large quantities in nets set through the ice of Little Bay de Noc in late winter. But many people believe the little silvery fish are caught only when they make their spring spawning run up Michigan streams.

Smelt are expected to start running from the Lakes up the streams in Lower Michigan in about two weeks. First runs are most often reported from Grand Traverse county waters.

In the Escanaba area the run occurs in late March and early April, with some of the best dipnetting in the region to be found in Delta County streams. These rivers include the Days, Tacooosh, Valentine, Ford and Escanaba.

AND AN ENDING—At this season when the smelt dipnetters are taking a few practice swings and looking forward to the opening of the season, another fishing season is drawing to a close.

This is commercial fishing on the ice of Big and Little Bays de Noc. Hundreds of thousands of pounds of fish are taken each winter from bay waters for the market, giving employment to several hundred persons.

This is the season now at hand for fishermen in the Delta County area. The ice is breaking up and the fishermen must end winter operations and prepare to set their nets by boat.

At Escanaba there is usually an in-between time, when the ice still blocks the harbor but is so unsafe that fishermen cannot venture out on it. Sometime a couple weeks go by before conditions permit the start of open water fishing.

THE DANGEROUS WAY—Most commercial fishermen are born to the business. They come from families of fishermen, some of whom are counted among the area's earliest settlers.

For fishing has been one of Delta County's major industries for a century or more. Before the pine was lumbered or the railroads built, men came in boats to settle communities at bays along the shore and from there carry on fishing operations.

Kates Bay north of Garden was a settlement founded more than 100 years ago. Sack Bay south of Fayette is this year observing its centennial.

In the early days the fish were salted and stored in wooden casks for shipment to market aboard sailing schooners; today they are iced or quick-frozen and shipped by truck or rail to customers hundreds of miles away.

THE NEWEST FISH—The delectable whitefish and trout—finest food fishes of the Great Lakes—were about the only specie taken before the turn of the century.

Through the years the supply of these two species dwindled. Then the trout were given what many consider to be a death blow by the invading sea lamprey. Now only a few pounds of trout are taken annually.

Perch, walleyed pike, northern pike, and even suckers came into demand as the better fish declined.

Then along came the smelt—millions, billions of smelt. And the fishermen were dismayed, because no one could force a use for them. But uses are being found—for human consumption, as an ingredient in cat food, for sale to mink ranchers—and the smelt is a fisheries asset.

The Doctor Says... Bubonic Plague Will Be Defeated Only by Vigilance

By EDWIN P. JORDAN, M. D. — Written for NEA Service

"Every so often," writes Mrs. S., "men from the State Department of Agriculture come to trap and poison the gray ground squirrels in our vicinity. The reason they give is that these squirrels harbor fleas which carry bubonic plague." Mrs. S. therefore asks for a discussion of the dangers of this disease.

Bubonic plague which was known as the Black Death during the Middle Ages, is a constant source of concern to our health authorities. This is a disease which carries many explosive possibilities. At present, on the North American continent, single cases do occur from time to time but the real hazard is from some sudden, great outbreak.

A vivid description of this disease was given by Daniel Defoe, the author of Robinson Crusoe, in his "History of the Great Plague." The frightful epidemic of which Defoe wrote occurred in London in 1664.

He said, "The many dismal objects which happened everywhere as I went about the streets had filled my mind with a great deal of horror, for fear of the distemper itself, which was indeed very horrible in itself, and in some more than others. The swellings, which were generally in the neck or groin, when they grew hard, and would not break, grew so pain-

ful that it was equal to the most exquisite torture; and some, not able to bear the torment, threw themselves out at windows, or otherwise made themselves away, and I saw several dismal objects of that kind... Such as died had very little notice of their being infected at all till the gangrene was spread through their whole body."

Between 1896 and 1911, about five and a half million deaths occurred from plague in three of the provinces of India, which have a combined population of about 100 million. In the winter of 1910-11, there was an epidemic of pneumonia—the drop-let-spread, lung-involving type of plague in Manchuria which killed more than forty-five thousand persons in a few months.

FLEAS DESERT DEAD RATS
An outbreak of bubonic plague developed in San Francisco in 1900; between 1900 and 1940 human cases have been reported in eight states with 499 cases and 314 deaths. When the rat dies the fleas desert the dead body and if another rat is not handy they move onto the nearest person.

Besides constant vigilance against this hazard from rats and squirrels, every possible care must be used so that airplaneships or persons coming from areas in which plague still exists do not bring with them new seeds of the Black Death.

Curriculum In Home Economics Explained

The program of the home economics department of the Escanaba Junior and Senior High Schools was explained to members of the Board of Education last night following a dinner at which the Board members were guests of the teachers and students.

Mrs. Doris Swanson outlined the curriculum for seventh grade students and Miss Marion Shane, chairman of the home economics curriculum study committee, explained the program with Mrs. Swanson for eighth and ninth grade girls. Mrs. Florence Foltman outlined the curriculum for 10th and 11th grade girls.

Following the curriculum study discussion Junior and Senior High

School girls demonstrated their work and conducted a style show. The outline of the home economic program covered seven fields of endeavor: sharing in family meals, improving appearance and dress, developing personality, beautifying and caring for the home, caring for young children and sharing holiday occasions and family celebrations.

Several suggestions for improving facilities in the home economics department at the Junior High School were made to the Board by the curriculum study committee.

The broadness of the program was particularly stressed. Home economics courses are required for seventh and eighth grade students but are optional for ninth, tenth and 11th grade girls. No program is available now for 12th grade girls who have completed the entire course of study that is offered.

Youths Taken to Ohio; Are Charged With Stealing Pony

CRYSTAL FALLS—Tom Knipp, 26, and his younger brother, William Knipp, 17, have been taken to McArthur, Vinton county, Ohio, to stand trial for stealing a pony.

They were delivered to the Ohio authorities following extradition proceedings as a result of a warrant issued by Governor G. Menen Williams, who was petitioned to do so by W. H. Lohr, district attorney of Vinton county. The proceedings were conducted in Probate Judge Norman Trahair's court by Prosecutor Dascola.

Lohr advised Sheriff Ed P. Sandri and Dascola that the Knipp brothers took a pony from a pony farm in Vinton county and sold it for \$80 in Mansfield, a considerable distance away from McArthur. The Ohio authorities claim the pony was worth \$250, and that a second pony was missing after the Knipp brothers visited the farm.

Sheriff William Brown, of Vinton county, accompanied Lohr here for the proceedings and the two took the brothers back to McArthur. The Knipp brothers were arrested here two months ago for taking a battery from a car in Stambaugh township.

Council To Study Restricted Parking Area Near School

Escanaba City Council will meet at 8 p. m. Thursday in regular session with Mayor Robert E. LeMire presiding. The following is scheduled to come before the Council:

Consideration of creating a new restricted parking area around St. Joseph School. Setting a date for hearing of objections to improvement of water main extension on S. 20th St. between 5th and 7th Ave. S. In the absence of City Manager A. V. Aronson, who is recovering from surgical treatment at St. Francis Hospital, City Engineer Loren Jenkins is serving as acting manager.

Algonac Man Held Here On Contempt Of Court Charge

Robert Randall, 34, of Algonac, is being held in the county jail on a contempt of court charge based on his alleged failure to pay alimony. The complaint against him alleges that he has been several months in arrears and has ignored communications to him dealing with the matter.

He was arrested in Port Huron last week and held for Delta county authorities. A representative of the local sheriff's office brought him to Escanaba yesterday.

Board Discusses Sale of Press

The Escanaba Board of Education last night opened its meeting with a prayer for divine guidance in solving perplexing issues.

The action was taken at the suggestion of C. Gust Peterson who said that he felt the Board needs divine assistance in its problems, particularly in the sale of the Escanaba Press. It was indicated that the practice will be continued at future meetings.

At the meeting last night, a statement signed by all of the employees of the Escanaba Daily Press was given to the Board. The statement declared that the employees have not offered to purchase any stock in the newspaper company proposed by Frank Russell Jr., of Marquette, and that they do not intend to purchase any stock in that company.

Reply to Russell Statement

The statement was made in reply to a statement made last week by representatives of Mr. Russell that an issue of \$25,000 of preferred stock has been subscribed by one or more of the Press employees.

In Mr. Russell's bid, he and his associates offered to pay \$400,000 plus an additional sum up to \$25,000 that the employees would be offered in preferred stock. Mr. Russell's bid did not include the accounts receivable, inventory or prepaid expenses. The Press employees offered \$425,000 for the property, including the accounts receivable and other assets.

The Board will meet Thursday afternoon at 4:30 to further consider the proposals that have been submitted for the purchase of the paper.

Other Actions of Board

Other actions taken by the Board last night follow:

Received a check for \$1203.75 from James E. Frost, executor, representing earnings on some of the investments in the Anna C. Norton scholarship fund.

Received a report that the Escanaba High School has again been approved for non-resident student tuition collection.

Received a recommendation from the Escanaba Insurance Agents Association that extended coverage be added to the fire insurance policies on school buildings.

TROUBLE FOR BENNY — Jean Scott Baker, 21-year-old model, poses in State Supreme Court in New York where she filed suit against Seth H. Baker, 26, a stock broker, seeking to have the court set aside a Virgin Island divorce from Baker. He recently wed Joan Benny, daughter of comedian Jack Benny. Miss Scott asked a separation plus support and maintenance. She contends that neither she nor Baker were bonafide residents of the Virgin Island in January, 1953, when the divorce was granted. Baker has maintained the divorce is valid and says Miss Scott accepted a \$5,000 settlement when they split. (AP Wirephoto)

Notice Issued On Strike Vote

The Harnischfeger union local, CIO-UAW, has posted a notice on the plant's bulletin board calling for a strike vote to be taken Monday of next week.

Robert Losse, general manager, reported that company officials were surprised at the development because bargaining negotiations have been in progress and another meeting is scheduled for Friday of this week.

Various issues, including wages, have been discussed in the bargaining negotiations, Losse said.

Approximately 575 employees are eligible for union membership in the two plants of the Harnischfeger Company here.

WMAM TV Station Plans To Telecast About August 1

MARINETTE—Joseph D. Mackin, general manager of Radio Station WMAM, told the Marinette

Kiwanis club members at a meeting that almost \$500,000 has been invested in Station WMBV-TV, which is expected to begin telecasting in this area about Aug. 1.

The manager explained the station's call letters to club members. Following the W, the standard beginning call letters for stations in this area, the M represents Marinette and Menominee, the B designates Bay, and the V denotes the Fox River Valley, thus forming a description of the coverage area.

Mackin added that by the time the television station begins programming the coverage area will contain an estimated 200,000 sets, with a potential audience of 700,000 persons.

According to Mackin, WMBV-TV will telecast from 4 p. m. to midnight, under tentative plans. He said colored television is expected to be a factor in two or three years, and that the change of station equipment will be possible with minor modifications.

sible with minor modifications. The manager said future plans include telecasting of high school sports events.

Saginaw Bus Strike Reaches Ninth Day

SAGINAW (AP)—The Saginaw bus strike today reached its ninth day—but still is nine days short of the 18-day strike in 1952.

Fifty-eight AFL bus drivers and mechanics walked out last Monday after their request for wage increases and fringe benefits was turned down by the Saginaw City Lines.

There is no immediate sign of settlement, although City Council is expected to ask a writ of mandamus in attempt to force the company to arbitrate with the union under terms of a city ordinance.

A fact-finding panel, appointed by Gov. Williams has recommended a 15-cent hourly wage increase plus fringe benefits. The union said it would accept. Earlier, the company had offered six cents.

Hawaii-Alaska Bill Attacked

By HARRISON HUMPHRIES
WASHINGTON (AP) — Southern senators skilled in the art of lengthy debate today continued their attack on statehood for Hawaii and Alaska.

Sen. Daniel (D-Tex.) was prepared to take over where Sen. Eastland (D-Miss.) left off Tuesday night.

Eastland occupied the Senate floor nearly four hours in what he said was the "preface" to a discussion of his theme that Communists dominate the political and economic life of the Hawaiian Islands.

The Mississippi senator announced that he plans to speak for "three or four days."

Sen. Smathers (D-Fla.), a leader in the opposition to the combined Hawaii-Alaska statehood bill, told a reporter there will be no filibuster in an effort to prevent a Senate vote. But he said he does not believe there is a chance for a vote "on anything" in the Senate this week.

He said an amendment proposing commonwealth status for Hawaii and Alaska as a substitute for statehood probably will be offered in the Senate Thursday.

The commonwealth proposal would give the two territories the right to elect their own governors and retain federal tax collections for local use. But they would not get voting representation in Congress nor participate in presidential elections.

Unemployment Claims For Michigan Jump 7,900 During Week

DETROIT (AP)—The Michigan Employment Security Commission reported today that claims for unemployment compensation jumped 7,900 in Michigan in the week ended last Thursday.

This, it said, brought total claims to 171,859 in the state, with 97,001 of them in the Detroit metropolitan area.

The commission figured Michigan's total unemployed at 214,000 on Feb. 15, with 140,000 out in Wayne, Oakland and Macomb counties.

The commission had estimated the last two weeks of February would "indicate a slight, but significant decrease in the upward trend of unemployment" in the Detroit area. But a spokesman said the indication had not been borne out.

Hospital Sisters Help Big Families

Answer The Call - Give To The 1954 Red Cross

This year the American Red Cross is asking for \$85 million to finance its home, foreign and disaster services. The Red Cross is stressing that the end of the war in Korea has made no difference in the organization's need for services at home or abroad. Nothing is over but the shooting, and the needs of servicemen, disaster and accident victims, veterans and the general public are unchanged. When you are in any trouble your Red Cross stands ready to help you. Now is the time to answer its call.

HELPING HAND is extended to repatriated POW's as they return to the U. S. In addition to their families, a Red Cross "lady in gray" is there to welcome them. Arrangements for gift telephone and telegraph messages are always on the agenda.

SAFETY SERVICES have trained millions across the nation in swimming, accident prevention, first aid and water safety. In addition, a new service of planned swimming has made friends among the handicapped and the disabled.

WHEN DISASTER STRIKES Red Cross workers are rushed to the scene. During the June, 1953, tornado, this young girl's chest was crushed by debris. While she was confined to a hospital, a Red Cross nurse was on hand to comfort her.

SOLDIER SERVICES must go on regardless if there's a shooting war or not. For thousands of G.I.'s across the world scene, the Red Cross maintains mobile clubs where American soldiers can gather to play and enjoy refreshments.

Democrats Plugging For Income Tax Cut

(Continued From Page One)

Democrats took their appeal to the nation Tuesday night in a radio and television broadcast to reply to an address by President Eisenhower the night before.

House Democratic Leader Sam Rayburn of Texas declared the Republican tax revision program eventually would provide six times as much relief to the upper 20 per cent income brackets as to the great majority of other taxpayers.

He said "this is what the Republicans call a 'balanced' tax program."

Bigger Deficits Certain

He told his listeners if they were among the 80 per cent of Americans who, he said, earn less than \$5,000 a year, "the Republican tax program offers you little or no relief at all."

Eisenhower had said the loss in revenue from the Democratic proposal would undermine the "cornerstone" of his domestic program, and would lead to bigger deficits and more inflation.

The President said millions of individuals would benefit from the revision bill he described as "fair to all," providing more liberal tax deductions for many items ranging from medical expenses and retirement income to dividends and business depreciation.

Chairman Daniel A. Reed (R-NY) of the Ways and Means Committee declared in a statement Tuesday that the Democratic tax-cutting plan would "inevitably lead the American people down the road to a general sales tax."

The \$100 exemption increase would mean a saving of about \$20 for each taxpayer and each of his dependents in middle and lower income brackets. It would relieve more than four million taxpayers with low incomes or large families from any income tax bill at all.

It said airline pilots reported that even Lake Superior was mostly clear, although the St. Marys River still is frozen solid in places and ships cannot pass between Lakes Huron and Superior.

Lakes Huron and Ontario are ice-free and only scattered floes appear in Lake Erie. The Straits of Mackinac, between Lakes Michigan and Huron, are clear but large quantities of solid and windrowed ice still are in upper Lake Michigan.

Saginaw Bay off Lake Huron and Green Bay off Lake Michigan are ice-closed and Buffalo's harbor on Lake Erie is full of windrowed ice, but ports between Detroit and Cleveland are clear.

The steamer S. T. Crapo, of the Huron Portland Cement Co., is scheduled to open navigation on Lake Huron today, sailing from Detroit to Alpena on its first trip of the season.

TURNED TIDE

Tide of the Revolutionary War was turned toward the American cause when colonial troops stopped British General Burgoyne at the Saratoga battlefield, now a historical park.

Income Tax Returns In Michigan To Total Around Six Billions

DETROIT (AP)—Internal Revenue workers today sorted through an estimated 2,500,000 1953 income tax returns filed in Michigan before the March 15 deadline.

A. M. Menninger, district director, said total tax returns in Michigan this year would reach an estimated \$6,000,000,000.

Menninger said some 400,000 of the anticipated 1,200,000 refunds on 1953 incomes of Michigan workers and industries have already been processed. The Internal Revenue Department said it plans to have all refunds processed by May 15.

Wall Street

NEW YORK (AP)—The stock market swung about today in an irregular manner with price changes in minor fractions and only occasional issues gaining or losing as much as a point.

Trading was at a rate of around 1½ million shares for the day, compared with 1,540,000 shares traded Tuesday.

Motors, and especially Chrysler, were higher.

Admiral Corp. was off a fraction on slightly lower earnings, and others going down included Goodyear, Distillers Corp., American Telephone, Dow Chemical, General Electric, and Gulf Oil.

Higher were Chrysler, General Motors, United Aircraft, Homestake Mining, and Dom Mines.

U. S. government bonds were higher.

McCarthy Offers To Be Quizzed By Army's Lawyers

(Continued from Page 1)

G. Adams, the Army's general counsel, tried to "blackmail" them into an effort to ward off a subcommittee investigation of alleged Communists in Army ranks.

Serving as temporary chairman during this special probe will be Sen. Mundt (R-SD), a close associate of McCarthy in past proceedings.

Part of the proceedings will be in public, probably before television cameras. These hearings may come late next week.

STANDS BEHIND STEVENS

WASHINGTON (AP)—President Eisenhower said today he has full confidence Secretary of the Army Stevens is telling the truth in his controversy with Sen. McCarthy (R-Wis.).

The President told a news conference that if he didn't have confidence in Stevens' integrity, Stevens wouldn't be holding the job he does.

Eisenhower said it may turn out that Stevens has made some mistakes, but he added that so far as the secretary's integrity and honor are concerned he stands behind Stevens.

The question of who is telling the truth looms as the central issue for the developing Senate inquiry into the row between McCarthy and his chief counsel, Roy Cohn, on the one hand and Army officials on the other.

Danforth

Regular Meeting

The Danforth Newhall local 406 held a regular meeting Monday evening, March 15, at the Newhall School.

After the business meeting, cards were played with Mrs. Joseph Chouinard and Marion Hahn holding high honors, while Mrs. Mildred Blixt and Stanley Hahn held low honors. The guest award was presented to Mrs. Thomas Lafleur.

Lunch was served by Mrs. Fred Germain, Mrs. Joseph Chouinard and Mrs. Joseph Charon.

The next regular meeting will be held April 26 at the Newhall School.

Legalized Bingo Measure Buried

LANSING (AP)—The fight to legalize charity bingo in Michigan is not dead—even though the state Senate has killed one phase of it.

The Senate Tuesday buried in committee a proposal to submit to the voters next fall a constitutional amendment to legalize charity bingo games conducted by non-profit groups. The vote was 15-16. Twenty-two votes were needed for passage.

But Charles R. MacLean of Lansing, counsel for the Michigan Association of Non-Profit Charitable Organizations, said the Senate defeated would spur the organization's petition drive to put the issue on the November ballot.

"This has made our people mad," MacLean said. "They felt they were entitled to have the Legislature put this on the ballot and let the people decide. They feel that if some big corporation had asked for this there would have been no question about it, but when it's just the common people who want it, they get no consideration."

MacLean said the organization, chief sponsor of the campaign to legalize bingo, already has 100,000 of the 287,000 signatures needed to put the issue on the ballot. He said the group was aiming at 500,000 signatures.

Missionary Tells Of Activities In The Belgian Congo

ROCK—John Small turned the Family Bible Hour meeting Sunday evening at the Rock Town Hall, over to Robert Greenhow, missionary on furlough from the Belgian Congo in Africa. The attendance was good in spite of the stormy weather.

After the devotional services, Mr. Greenhow illustrated his talk on Africa by colored slides. He spent six years in Belgian Congo, doing missionary work in the northern part, then transferring to the southern part, about 500 miles away. Belgian Congo is very large, one third the size of the United States. It is located on the equator, and of course is very hot. Dust storms are not uncommon. Therefore the snow seemed to be a welcome sight to the Greenhows.

On narrating about the Christmas season, Mr. Greenhow said the people of Africa have widely adopted Christmas in a big way. One slide showed a part of a gathering of 4,000 people for one of the Christmas conferences.

A dispensary building and a maternity building are conducted by the missionary people to care for the natives. When a mother comes as a maternity case, after the husband comes with her and they build a grass hut to live in for maybe three months before and after the blessed event. When asked which the natives prefer, pills or the needle for medicine required, they will invariably take the needle. They believe it takes effect soon that way.

Several slides illustrated the distended lips of the native women, a practice which has been banned by the government in recent years. While the baby girl was still very young, a round disc was placed in the upper lip. The size of the disc was increased as she grew older and her lip was stretched very large.

Mr. Greenhow will conduct and show more slides on Belgian Congo at the Family Bible Study Hour which will be held at the home of Mr. and Mrs. Herman Johnson this evening. Guests will be welcome.

On Wednesday after school both craft club from the Rock area and Turin, Lathrop, Forsyth area, will meet at the Rock Town Hall. Mr. and Mrs. Robert Greenhow will both be present to illustrate the story of Africa.

Instead of a Young People's meeting at the U. P. Bible Chapel at Little Lake Thursday evening, there will be a missionary rally at the Chapel for young and old. Mr. Greenhow will show additional slides and tell more about missionary work and the people of Belgian Congo. The public is invited to attend.

Mrs. Vilho Kaukula left for Chicago Monday night to be with her mother who is having a major operation.

O-Jib-Wa Bitters Proved There IS Help For ARTHRITIS

If you suffer from rheumatism or arthritis and haven't found relief—you haven't tried O-JIB-WA BITTERS. Mrs. Rose Gularek, 4392 Lonyo, Detroit, will tell you that O-JIB-WA really does help these conditions.

"If you spent a month and a mended to me by a friend whose half propped up in bed as I did, husband was greatly helped by then you would know how grate your medicine. I took it faithfully I am to O-JIB-WA Bitters and in about two weeks was JIB-WA BITTERS improved and in a little over a month was completely well. My ankles and knees no longer hurt and I am 100% better. I feel like a real young person again and can bend and reach and do my work like nothing. My husband is also a satisfied user, so it's no wonder that I recommend O-JIB-WA BITTERS to everyone I meet who is suffering from rheumatism or arthritis. O-JIB-WA BITTERS proved to me that there is help for arthritis. If you suffer, why don't you try it?"

GROWING SPIRITUALLY

By
E. STANLEY JONES

Col. 2:16-19 (R.S.V.)

"MY HANDS HAVE CORNS ON THEM"

We are looking at the fact that before we can grow in grace, we have to get into grace by self-surrender and faith. The steps are four: (1) failure, (2) faith, (3) freedom, (4) future.

A student of dramatics heard a psychiatrist who had recently been transformed by the power of Christ, and she remarked to another student: "How is it that the Christians have sparkling eyes? I'd be a Christian too if I could get eyes like that." That thought must have dropped into her subconscious, and there it quietly worked. One day in a streetcar an invisible Someone sat beside her and asked: "Where are you going? She knew He wasn't asking about her streetcar destination, so she said: 'I wish I knew.' He replied: 'Turn around, and you will know.' She said that inwardly she did turn around and was then and there soundly converted on the spot. She hurried to a Christian student and said: 'I'm converted. What am I to do, now that I'm a Christian?' She was introduced to the Bible, the Quiet Time, and witnessing. She was in grace, and now she could grow in it.

A woman wrote: "My hands have corns on them working and trying so hard to be good." She was looking at her own hands and trusting them instead of looking at the nail-pierced hands of Christ. It was self-salvation instead of Saviour-salvation.

Here was an alcoholic who worked for six years getting hold of other alcoholics and really getting them to go straight, but he himself would fall into the habit again periodically. One day in his bed he was reading Victorious Living, when suddenly his faith took hold of Christ as Saviour. He got up, went to the telephone, called a friend and said, "It's happened. I'm a new man." He was Alcohol dropped away. He was free. He has won about twenty alcoholics to a new life.

This is what is meant by "grows with growth divine" (Col. 2:19, Moffatt). It is not the result of human strivings, but a yielding to divine grace. This produces both humility and exaltation—humility that it isn't our goodness, and exaltation that grace has redeemed us.

O Christ, Thou hast thrown open to us the possibility of a growth divine. Help me to yield to this process with nothing held back. Amen.

Hawaii-Alaska Bill Attacked

By HARRISON HUMPHRIES
WASHINGTON (AP) — Southern senators skilled in the art of lengthy debate today continued their attack on statehood for Hawaii and Alaska.

Sen. Daniel (D-Tex.) was prepared to take over where Sen. Eastland (D-Miss.) left off Tuesday night.

Eastland occupied the Senate floor nearly four hours in what he said was the "preface" to a discussion of his theme that Communists dominate the political and economic life of the Hawaiian Islands.

The Mississippi senator announced that he plans to speak for "three or four days."

Sen. Smathers (D-Fla.), a leader in the opposition to the combined Hawaii-Alaska statehood bill, told a reporter there will be no filibuster in an effort to prevent a Senate vote. But he said he does not believe there is a chance for a vote "on anything" in the Senate this week.

He said an amendment proposing commonwealth status for Hawaii and Alaska as a substitute for statehood probably will be offered in the Senate Thursday.

The commonwealth proposal would give the two territories the right to elect their own governors and retain federal tax collections for local use. But they would not get voting representation in Congress nor participate in presidential elections.

Unemployment Claims For Michigan Jump 7,900 During Week

DETROIT (AP)—The Michigan Employment Security Commission reported today that claims for unemployment compensation jumped 7,900 in Michigan in the week ended last Thursday.

This, it said, brought total claims to 171,859 in the state, with 97,001 of them in the Detroit metropolitan area.

The commission figured Michigan's total unemployed at 214,000 on Feb. 15, with 140,000 out in Wayne, Oakland and Macomb counties.

The commission had estimated the last two weeks of February would "indicate a slight, but significant decrease in the upward trend of unemployment" in the Detroit area. But a spokesman said the indication had not been borne out.

Hospital Sisters Help Big Families

KALAMAZOO (AP)—Do you have four children and wonder how you're going to pay for No. 5? Don't fret. The sisters who operate the Borgess Hospital in Kalamazoo will provide free medical care.

Why? They want to prove that it's just as easy to raise large families as small ones.

The conditions are that the child must be born this year and must be the mother's fifth, sixth, seventh or eighth. Makes no difference where you're living.

Doctor bills, however, will not be covered.

Big Plant Planned

HOLLAND (AP)—General Electric Tuesday applied for a \$1,200,000 building permit for construction of a manufacturing plant and office building in Holland township. The plant will be on a 35-acre tract near new route US31.

Answer The Call - Give To The 1954 Red Cross

This year the American Red Cross is asking for \$85 million to finance its home, foreign and disaster services. The Red Cross is stressing that the end of the war in Korea has made no difference in the organization's need for services at home or abroad. Nothing is over but the shooting, and the needs of servicemen, disaster and accident victims, veterans and the general public are unchanged. When you are in any trouble your Red Cross stands ready to help you. Now is the time to answer its call.

HELPING HAND is extended to repatriated POW's as they return to the U. S. In addition to their families, a Red Cross "lady in gray" is there to welcome them. Arrangements for gift, telephone and telegraph messages are always on the agenda.

SAFETY SERVICES have trained millions across the nation in swimming, accident prevention, first aid and water safety. In addition, a new service of planned swimming has made friends among the handicapped and the disabled.

Democrats Plugging For Income Tax Cut

(Continued From Page One)

crats took their appeal to the nation Tuesday night in a radio and television broadcast to reply to an address by President Eisenhower the night before.

House Democratic Leader Sam Rayburn of Texas declared the Republican tax revision program eventually would provide six times as much relief to the upper 20 per cent income brackets as to the great majority of other taxpayers.

He said "this is what the Republicans call a 'balanced' tax program."

Bigger Deficits Certain

He told his listeners if they were among the 80 per cent of Americans who, he said, earn less than \$9,000 a year, "the Republican tax program offers you little

or no relief at all."

Eisenhower had said the loss in revenue from the Democratic proposal would undermine the "cornerstone" of his domestic program, and would lead to bigger deficits and more inflation.

The President said millions of individuals would benefit from the revision bill he described as "fair to all," providing more liberal tax deductions for many items ranging from medical expenses and retirement income to dividends and business depreciation.

Chairman Daniel A. Reed (R-N.Y.) of the Ways and Means Committee declared in a statement Tuesday that the Democratic tax-cutting plan would "inevitably lead the American people down the road to a general sales tax."

The \$100 exemption increase would mean a saving of about \$20 for each taxpayer and each of his dependents in middle and lower income brackets. It would relieve more than four million taxpayers with low incomes or large families from any income tax bill at all.

Lower Great Lakes Open To Navigation; Some Harbors Frozen

DETROIT (AP)—The lower Great Lakes generally are open to navigation, although some harbors still are ice-choked, the U. S. Weather Bureau reported today.

It said airline pilots reported that even Lake Superior was mostly clear, although the St. Marys River still is frozen solid in places and ships cannot pass between Lakes Huron and Superior.

Lakes Huron and Ontario are ice-free and only scattered flows appear in Lake Erie. The Straits of Mackinac, between Lakes Michigan and Huron, are clear but large quantities of solid and windrowed ice still are in upper Lake Michigan.

Saginaw Bay off Lake Huron and Green Bay off Lake Michigan are ice-closed and Buffalo's harbor on Lake Erie is full of windrowed ice, but ports between Detroit and Cleveland are clear.

The steamer S. T. Crapo, of the Huron Portland Cement Co., is scheduled to open navigation on Lake Huron today, sailing from Detroit to Alpena on its first trip of the season.

TURNED TIDE

Tide of the Revolutionary War was turned toward the American cause when colonial troops stopped British General Burgoyne at the Saratoga battlefield, now a historical park.

WHEN DISASTER STRIKES Red Cross workers are rushed to the scene. During the June, 1953, tornado, this young girl's chest was crushed by debris. While she was confined to a hospital, a Red Cross nurse was on hand to comfort her.

SOLDIER SERVICES must go on regardless if there's a shooting war or not. For thousands of G.I.'s across the world scene, the Red Cross maintains mobile clubs where American soldiers can gather to play and enjoy refreshments.

TOP NAVY NURSE — Comdr. Wilma Leona Jackson, of Union, Ohio, has been named to be the next director of the Navy Nurse Corps. She will assume her command, and be elevated to the rank of captain on May 1, when she is scheduled to take over from Capt. Winnie Gibson, present director of the Corps.

Income Tax Returns In Michigan To Total Around Six Billions

DETROIT (AP)—Internal Revenue workers today sorted through an estimated 2,500,000 1953 income tax returns filed in Michigan before the March 15 deadline.

A M. Menninger, district director, said total tax returns in Michigan this year would reach an estimated \$6,000,000,000.

Menninger said some 400,000 of the anticipated 1,200,000 refunds on 1953 incomes of Michigan workers and industries have already been processed. The Internal Revenue Department said it plans to have all refunds processed by May 15.

Wall Street

NEW YORK (AP)—The stock market swung about today in an irregular manner with price changes in minor fractions and only occasional issues gaining or losing as much as a point.

Trading was at a rate of around 1 1/2 million shares for the day, compared with 1,540,000 shares traded Tuesday.

Motors, and especially Chrysler, were higher.

Admiral Corp. was off a fraction on slightly lower earnings, and others going down included Goodyear, Distillers Corp., American Telephone, Dow Chemical, General Electric, and Gulf Oil.

Higher were Chrysler, General Motors, United Aircraft, Homestake Mining, and Dom Mines.

U. S. government bonds were higher.

McCarthy Offers To Be Quizzed By Army's Lawyers

(Continued from Page 1)

G. Adams, the Army's general counsel, tried to "blackmail" them into an effort to ward off a subcommittee investigation of alleged Communists in Army ranks.

Serving as temporary chairman during this special probe will be Sen. Mundt (R-SD), a close associate of McCarthy in past proceedings.

Part of the proceedings will be in public, probably before television cameras. These hearings may come late next week.

STANDS BEHIND STEVENS

WASHINGTON (AP)—President Eisenhower said today he has full confidence Secretary of the Army Stevens is telling the truth in his controversy with Sen. McCarthy (R-Wis.).

The President told a news conference that if he did not have confidence in Stevens' integrity, Stevens wouldn't be holding the job he does.

Eisenhower said it may turn out that Stevens has made some mistakes, but he added that so far as the secretary's integrity and honor are concerned he stands behind Stevens.

The question of who is telling the truth looms as the central issue for the developing Senate inquiry into the row between McCarthy and his chief counsel, Roy Cohn, on the one hand and Army officials on the other.

Legalized Bingo Measure Buried

LANSING (AP)—The fight to legalize charity bingo in Michigan is not dead—even though the state Senate has killed one phase of it.

The Senate Tuesday buried in committee a proposal to submit to the voters next fall a constitutional amendment to legalize charity bingo games conducted by non-profit groups. The vote was 15-16. Twenty-two votes were needed for passage.

But Charles R. MacLean of Lansing, counsel for the Michigan Association of Non-Profit Charitable Organizations, said the Senate defeated would spur the organiza-

tion's petition drive to put the issue on the November ballot.

"This has made our people mad," MacLean said. "They felt they were entitled to have the Legislature put this on the ballot and let the people decide. They feel that if some big corporation had asked for this there would have been no question about it, but when it's just the common people who want it, they get no consideration."

MacLean said the organization, chief sponsor of the campaign to legalize bingo, already has 100,000 of the 287,000 signatures needed to put the issue on the ballot. He said the group was aiming at 500,000 signatures.

Missionary Tells Of Activities In The Belgian Congo

ROCK—John Small turned the Family Bible Hour meeting Sunday evening at the Rock Town Hall, over to Robert Greenhow, missionary on furlough from the Belgian Congo in Africa. The attendance was good in spite of the stormy weather.

After the devotional services, Mr. Greenhow illustrated his talk on Africa by colored slides. He spent six years in Belgian Congo, doing missionary work in the northern part, then transferring to the southern part, about 500 miles away. Belgian Congo is very large, one third the size of the United States. It is located on the equator, and of course is very hot. Dust storms are not uncommon. Therefore the snow seemed to be a welcome sight to the Greenhow family.

On narrating about the Christmas season, Mr. Greenhow said the people of Africa have widely adopted Christmas in a big way. One slide showed a part of a gathering of 4,000 people for one of the Christmas conferences.

A dispensary building and a maternity building are conducted by the missionary people to care for the natives. When a mother comes as a maternity case, after the husband comes with her and they build a grass hut to live in for maybe three months before and after the blessed event. When asked which the natives prefer, pills or the needle for medicine required, they will invariably take the needle. They believe it takes effect soon that way.

Several slides illustrated the distended lips of the native women, a practice which has been banned by the government in recent years. While the baby girl was still very young, a round disc was placed in the upper lip. The size of the disc was increased as she grew older and her lip was stretched very large.

Mr. Greenhow will conduct and show more slides on Belgian Congo at the Family Bible Study Hour which will be held at the home of Mr. and Mrs. Herman Johnson this evening. Guests will be welcome.

On Wednesday after school both craft club from the Rock area and Turin, Lathrop, Forsythe area, will meet at the Rock Town Hall. Mr. and Mrs. Robert Greenhow will both be present to illustrate the story of Africa.

Instead of a Young People's meeting at the U. P. Bible Chapel at Little Lake Thursday evening, there will be a missionary rally at the Chapel for young and old. Mr. Greenhow will show additional slides and tell more about missionary work and the people of Belgian Congo. The public is invited to attend.

Mrs. Vilho Kaukola left for Chicago Monday night to be with her mother who is having a major operation.

Cro-Magnon men painted pictures on cave walls of animals which are now extinct and the paintings have been preserved to the present day.

GROWING SPIRITUALLY

By E. STANLEY JONES

Col. 2:16-19 (R.S.V.)

"MY HANDS HAVE CORNS ON THEM"

We are looking at the fact that before we can grow in grace, we have to get into grace by self-surrender and faith. The steps are four: (1) failure, (2) faith, (3) freedom, (4) future.

A student of dramatics heard a psychiatrist who had recently been transformed by the power of Christ, and she remarked to another student: 'How is it that the Christians have sparkling eyes? I'd be a Christian too if I could get eyes like that.' That thought must have dropped into her subconscious, and there it quietly waited. One day in a streetcar an invisible Someone sat beside her and asked: "Where are you going? She knew He wasn't asking about her streetcar destination, so she said: "I wish I knew." He replied: "Turn around, and you will know." She said that inwardly she did turn around and was then and there soundly converted on the spot. She hurried to a Christian student and said: "I'm converted. What am I to do, now that I'm a Christian?" She was introduced to the Bible, the Quiet Time, and witnessing. She was in grace, and now she could grow in it.

A woman wrote: "My hands have corns on them working and trying so hard to be good." She was looking at her own hands and trusting them instead of looking at the nail-pierced hands of Christ. It was self-salvation instead of Saviour-salvation.

Here was an alcoholic who worked for six years getting hold of other alcoholics and really getting them to go straight, but he himself would fall into the habit again periodically. One day in his bed he was reading Victorious Living, when suddenly his faith took hold of Christ as Saviour. He got up, went to the telephone, called a friend and said, "It's happened, I'm a new man." He was Alcohol dropped away. He was free. He has won about twenty alcoholics to a new life.

This is what is meant by "grows with growth divine" (Col. 2:19, Moffatt). It is not the result of human strivings, but a yielding to divine grace. This produces both humility and exaltation—humility that isn't our goodness, and exaltation that grace has redeemed us.

O Christ, Thou hast thrown open to us the possibility of a growth divine. Help me to yield to this process with nothing held back. Amen.

Decision On Farm Props Postponed

By JOE HALL
WASHINGTON — Senate Republican leaders postponed indefinitely a showdown fight on the choice between supporting farm product prices at the present high levels or switching to the flexible system President Eisenhower advocates.

Majority Leader Knowland (R-Calif.) told a reporter that he had put off to an uncertain date the calling off to debate of a wool production bill that was to trigger the fight on the key farm issue in this election year.

Delay until May appeared likely. Originally, Knowland had planned to bring up the wool measure, which is a part of President Eisenhower's farm program, either Monday or Tuesday.

Sen. Ellender (D-La.), senior Democrat on the Agriculture Committee, announced last week he would seek to attach to the wool bill on two-year extension of the present high-level price supports on basic commodities.

The President has urged congress to let a flexible 75 to 90 percent system of price props take effect next year. A bipartisan bloc of farm state senators is opposing his plan.

Trout Fry Will Be Planted In Superior

LANSING — Approximately 700,000 lake trout fry will be planted in Lake Superior in the next few weeks, the Conservation Department reported.

The fish were hatched this winter from eggs taken by Great Lakes commercial fishermen last fall.

Some 100,000 fry will be released at Big Traverse Bay, Portage entry, Ontonagon, Munising and Whitefish Point. The remaining 200,000 will go into the water off Marquette.

Going On TV

NEW YORK — CBS commentator Edward R. Murrow and Sen. Joseph R. McCarthy (R-Wis.) have settled on April 6 for McCarthy to appear on Murrow's television show, "See It Now."

Murrow offered the time on his show so McCarthy might answer criticism of him by Murrow last week.

By 1956, Taxpayers May Be Spared Job Of Filing Returns

DETROIT — T. Coleman Andrews says he hopes that by 1956 legislation will relieve 35 million of the nation's 55 million taxpayers from filing returns.

The commissioner of the Internal Revenue Service spoke Monday to the Detroit Economic Club.

Andrews explained the legislation would apply to persons whose income is known to the government and who have paid taxes through the withholding system.

He said the tax service would be able to compute taxes and bill the taxpayer for the amount due. He estimated the plan, which needs only approval by Congress, would save the service \$25,000,000 a year.

Tests Prove Foam Cleans Carpets Brighter

Naturally you want your carpeting and upholstery to look bright after you have worked to clean it. Make this test; clean the carpeting in one room with famous Fina Foam and another room with any other type of rug cleaner. Let the results of this test be your guide. Nothing cleans carpets like foam and no foam like Fina Foam. Available at The Fair Store, Escanaba. (Adv.)

New Floor Care Ends Waxing

One of the most difficult jobs of housekeeping is to keep linoleum and asphalt tile floors waxed and gleaming. Now, thanks to Glaxo, it is no longer necessary to wax and scrub. All you do is apply Glaxo with a brush about twice a year. It maintains a high lustre, non slip coating that seals out dirt. Glaxo dries in one hour and is water clear. It's cheaper than wax in the long run, besides saving a terrific amount of work, plus truly a beautiful floor. Glaxo is available at the Fair Store, Escanaba. (Adv.)

'PEACE' HORSE — President Eisenhower admires a bronze model of the 18-foot statue called "Peace" which Yugoslavia will present to the UN. Presenting the model to Eisenhower is Vladimir Popovic, left, Yugoslavian ambassador, who paid a farewell visit to the White House before returning to his country.

Independent Surveys Show:

**Most

Excise Tax
Is Tax
You Pay on
Telephone
Service**

Year after year, independent surveys show that the public resents the Federal excise tax on telephone service.

In 1950, four out of five people interviewed by Opinion Research Corporation said the tax on local telephone service should be eliminated or reduced. Three out of four said the tax on Long Distance calls should be eliminated or reduced.

In 1953, the American Institute of Public Opinion found twice as much resentment against the tax on telephone calls as there was against the next "most disliked" tax.

And again late in 1953, the majority of the people interviewed in a poll by Opinion Research Corporation said the Federal excise tax on local telephone service is the one they "object to most."

The Federal Government imposes excise taxes on telephone service at the following rates:

15% on local service and calls under 25 cents

25% on Long Distance calls of 25 cents or more

These are direct taxes on telephone customers, not on the telephone company. Customers pay them as part of their telephone bill. The company merely collects them for the government.

Junior Class Play At Stephenson Thursday Night

STEPHENSON—The Junior Class of Stephenson High School will present the play, "Two Dates for Tonight," a comedy in three acts by Paul S. McCoy, March 18, at 8:50 p. m. at the Stephenson High School gym.

The play takes place in the living room of the Mayfield residence, a Saturday morning in spring.

Cast of Characters

Cast of the play is as follows: Anne Mayfield, Barbara LaPoint Sally Mayfield, Janie Nelson Vera Mayfield, Karen Corey John Mayfield, Bob Carroll Freddie Buchanan, Archie Roberts, William Chandler, Richard LeRoy, Stella Chandler, Beverly Hayward, Sylvia Chandler, Barbara Grinstead, Diana Wells, Linda Nelson, Larry Randolph, Jim Strohl, Mrs. Westgate Jones, Betty Morris, Bradford Carter Jones, David Rivard.

Miss Gallup, Carol Anderson, Toney, Jack Halvorson, Committees are:

Director, Mrs. Frances Weigand; student director, Carol Olson; prompters, Janet Rivard and Ruth Wangerin; advertising, Tom Kakuk, Margaret Nerat, Avis Newlin, Marlene Leveck, Lillian Sundstrom, Gladys Poisson, Melvin Lietzow; Stage manager, Marlin Hoida, Robert Berzsenyi; make-up, Pat Anderson, Peggy Weber, Darlene Parrett, Monica Kalaszewski; ushers, Evelyn Havelka, Margaret Nerat, Avis Newlin, Pat Allgever; tickets and program, Marlin Hoida, Ronald Winter.

Entertainment between acts will be selections by the Girls Sextette and a solo, "Stranger in Paradise" by Ronnie Winter.

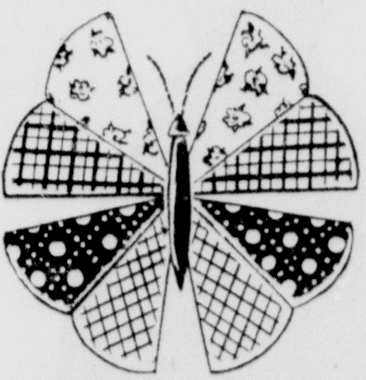

HOUSEHOLD HINTS

Roast chicken test: Move the drumstick up and down. If the leg feels loose at the thigh joint, your bird is ready to serve.

Keep a ceramic tile near your range so you can use it to hold your tasting and stirring spoons. Saves counters, and the enamel surface of a range, from getting messy. When you are washing your pots and pans, you can just wipe off the tile.

If there's no work surface in your kitchen on which you can clamp a food grinder, attach it to the top surface of your kitchen step ladder. However, if you are planning to buy a new food chopper, remember that you can now get the kind that needs no clamping.

Try a pinch of spice in summer vegetable dishes. Nutmeg teams well with spinach, carrots or corn; all-spice is wonderful with a mixture of tomatoes and celery and squash; marjoram is delicious with snap beans.

Spring Style Is Feminine, Not Frivolous

By ALICIA HART
NEA Beauty Editor

Hair styles for spring and summer will continue to accent the fluid but controlled lines that made news last fall. This comes straight from New York's top coiffure creators.

The future points to femininity without frivolity, neatness without severity, individuality without affectation. It would seem that standards of styling in this era of short hair are finally well established.

A key word in the current trend is mobility. We saw it in last year's Italian cut. Since that much-publicized hairdo offered nothing beyond movement in all different directions, its popularity was short-lived. However, it did herald a new direction in styling.

Modified Italian

In the past year American stylists have been adapting the mobility of the Italian cut to the American look. The results have been notable.

Our stylists have tempered the mobility with considerable restraint, giving us a look that is at once free and controlled, sleek and fragile.

And, because mobility remains the key to the styling, the possibilities for variety are limitless.

For spring, stylist Henry of the Roosevelt is taking his cue from the fashion world and accenting youth.

"Even the sophisticated slim fashions have a supple rather than a sleek look," Henry pointed out. "And, of course," he added, "the Empire waistline and the princess line are most important."

"Angel" Cut

"So to complement these styles I have introduced the Botticelli angel cut. It features individually placed half curls that have a frankly sentimental feeling. And, like a little girl's, they are carefully combed."

The chop-chop cut and the Nina are also among this stylist's spring and summer innovations.

The fluidity of the new mode of hair styling is most evident in the first, which falls into a new pattern at the command of the brush.

To create this cut, Henry shapes and molds the hair to the head in layers. Consequently, he says, this casual style never loses its "just brushed" freshness.

The Nina cut is Henry's interpretation of sophistication for spring. The smooth, precise cap from crown to nape is softened by a few strategically placed kiss curls at the forehead and over the ears.

Hair styles in coming months will feature femininity and controlled mobility. The styles shown here are the spring innovations of stylist Henry of the Roosevelt. His Nina cut (upper left) is a sleek cap from crown to nape, softened by a few kiss curls. The sentimental note is struck in his Botticelli cut (upper right) that flows back in waves that are caught in half curls. Versatility reigns in the Chop Chop (lower pictures) which bends easily to the brush. The hair is cut carefully in layers so that neatness is not lost to casualness.

Your Baby Will Set Own Schedule

By DOROTHY WHITTLE, M. D.

AP Newsfeatures

Just what does a self-demand schedule mean?

In its simplest terms, self-demand means feeding a baby when he is hungry and letting him sleep when he is sleepy. It sounds simple, doesn't it? It is too, if you stir in a very large measure of common sense.

Let's take a look at a brand-new baby and see what his needs really are. For nine long months he has been nourished constantly through his mother's bloodstream. He has never been hungry.

When he is born this constant supply of food is cut off. After a good rest his body feels the need of food and he cries out with hunger.

This is a good time to feed him—when he is hungry and wants to eat. It's a much better time than any set number of hours after birth. Some babies wake up and want to eat as early as six hours after birth. Others are sleepy for 24 hours or even a little longer after birth.

He will Be Contented

During the first few weeks of a baby's life he wakes up when he is uncomfortable and goes back to sleep when he is contented. The things that make him comfortable are food, warmth, holding and loving. If we give him what he needs when he needs it usually we can keep him pretty contented and peaceful most of the time.

It takes time for a baby to get used to living in the outside world, instead of in his mother's body. It's natural he should take more food at one time than another and sleep longer when he has had more food. Some babies want a little food 10 or a dozen times in 24 hours for a week or two. Occasionally a baby will wake up on the dot every four hours right from the beginning.

Regardless of how often a baby eats in the early weeks, almost all babies grow up to want food at regular times. We don't teach them to be regular; they just grow up to the point where they want it themselves.

While your baby is doing this growing up, if you feed him when he asks for food both you and he

will be a lot happier than if you insist on feeding him by the clock.

Let Him Sleep

But be sure he really is asking for food. Don't rush in and pick up your baby every time he utters a sound. Babies are noisy in their sleep. They grunt and they growl, they whimper and snort. Leave your baby alone to sleep, in his noisy baby fashion. When he is really hungry he will let you know in no uncertain terms. Real yells are a demand for attention. Go to him and do what he needs.

Babies grow up happier if we don't force regularity on them before they are old enough to want it.

Your baby will become regular whether you use a rigid schedule or a self-demand schedule. Life for the whole family is pleasanter if your baby gets his needs satisfied and doesn't cry a lot while you're waiting for him to grow up enough to enjoy his meals at regular intervals.

You can make your own brown coloring for chop suey, for soups, gravies and sauces, says Mrs. Norma Kowitz, a Michigan State College home economist. Simply caramelize one-half cup sugar in a frying pan until it is almost burned (it will have lost its sweet caramel flavor at this point) then add a little hot water to dissolve the caramelized sugar. Save what you do not need for later use. It will keep indefinitely in a bottle in the refrigerator.

Powers-Spalding Juniors Select Hillbilly Play

POWERS-SPALDING—Comedy and fun will greet the audience at the play, "Hillbilly Weddin'" to be presented by the Junior class of Powers-Spalding High School Sunday, March 28, at 8 p. m. (est), at the Powers Hall.

In a cheerless forlorn cabin sits Paw Belsnickie, a man with a problem, rather six problems in the form of six unmarried daughters. How he handles that problem brings hilarity to the stage.

Paw Belsnickie, the father, will be portrayed by Howard Oradovec. Maw Belsnickie, a hard, weary woman, who can whine or demand, is played by Judy Nowack.

The problems are as follows: Cecile Belsnickie, a daughter about 19, unattractive, homely and dirty, Ione Walechka; Bonnie Mae, an 18-year-old, very pretty and petite, Kaye Stebbins; June Lou Belsnickie, 16, also a personal beauty, Phyllis Mickers; barefooted Four Belsnickie, a capable chubby girl, Janet Pavlot; Five Belsnickie, 13, a slender, dirty barefooted hillbilly, Darlene Pirlo; Six Belsnickie, 12, a dirty, small pigtailed brat, if she had the energy, Virgie Hupy.

Jule Hansen will take the part of Ronald Maxwell, a medical student who is deeply moved by the troubles of the human race. John Andrews plays the part of a neighbor about 18 who is quite a likeable rangy youth, and "Chiz" Upschlager, Obeey's brother, will be impersonated by Jack Gorzinski. Lucy Maxwell, a regal haughty woman and aunt of Ronald Maxwell, will be played by Rose Samadral. Glen Jamar will have the role of the Valley's only minister. Cousin Zeke, a tall thin barefoot individual and relative will be played by Jim Henderson. Director of the play is Miss Shirley Jacobson, commercial education teacher.

IN MEMORIAM

In loving memory of our dear husband and father who passed away five years ago today, March 17, 1949:

We seem to see in the soft dim light

A face we loved the best;

And think of him when the sun's last ray

Goes down in the far off west;

We miss you no less as the time passes on,

Than we did on the day of your going;

For absence can never close the door of our hearts,

And the lamp of our love is still glowing.

Your heart was the truest in all the wide world.

Your love the best to recall;

For no one on earth could take your place.

You are still the dearest of all.

Five Vieing To Be Queen
Of Garden Smelt Festival

Five queen candidates have entered the contest to be crowned queen of the Garden Smelt Festival at Garden April 24.

The festival is under sponsorship of the Garden Lions club.

A parade through the village starting at 2 p. m., the crowning of the queen, a smelt supper from 4 to 7 p. m., in the Garden community building, and a dance in the evening are planned.

Gov. G. Mennen Williams has been invited to the festival but has not indicated whether or not he could attend.

A feature of the festival will be the dipping of smelt right in the Gage, where a creek passes through Garden. The Garden area is considered one of the No. 1 smelt fishing spots.

The queen candidates and their sponsors are Connie McEachern, Cooks senior class; Shirley Lund, Cooks junior class; Lola Flickinger, of Garden, Boy Scouts; Sherry Ranguette, of Fayette, Garden American Legion; and Carol LaTulip, of Garden, Garden Lions club.

The queen will be selected during the festival and will receive her crown that afternoon.

Students Will Play In Festival

Sixteen Manistique High School students, representing the band and chorus, will go to Marquette Saturday to participate in the Upper Peninsula solo and ensemble festival.

Individuals who will perform in the festival are Maurice Creeger, drum solo; Steven and Richard Smith, trumpet and trombone duo; Dorothy Giovannini, piano solo; Lois Ousterhout, clarinet solo; Carol Swanson, piano solo; Gail LeBrasseur, vocal solo; and the Girl's Ensemble, choral singing.

In the ensemble are Helen Charron, Gail LeBrasseur, Donna Larson, Janet Pollock, Katherine Hall, Rita Roussin, Marlene Carlson, Carol Dybevik, and Margaret Quick. Loretta Charron accompanies them.

Douglas Harding, vocal music instructor, Joseph Giovannini, band director, and several parents are scheduled to accompany the students.

During the morning and afternoon, students from various U. P. High Schools will perform for adjudication, and in the evening the best players will perform in a public concert.

A choral festival will be held in Negaunee April 3 and a band festival April 10, for U. P. music students. MHS will be sending musical groups to both.

Strong Field Goes After State Crowns

By JOE FALLS

Associated Press Sports Writer

One of the strongest fields in history goes into tonight's quarter-finals of the State High School Basketball Tournament. The 32 survivors have won a total of 536 games while dropping only 116—for a sparkling winning percentage of .862.

Only one team—Pontiac—has a losing record. The Chiefs have an 8-10 mark and, ironically, they'll meet perhaps the strongest team in the state, Highland Park, winner of 17 straight games.

Statistically, only one team has a better record than Highland Park. That's unbeaten Lansing Sexton, which has won all 19 starts.

Don Carter Misses

300 Game, New Car

CHICAGO (AP)—Don Carter of Detroit, national individual match game bowling champion, missed bowling a perfect game by one pin Tuesday night — and missed winning a 1954 automobile.

Carter, in a match with Cliff Tolle featuring a locally televised bowling series, made 11 straight strikes. Then he left the 10 pin standing for a score of 299. The prize for a 300 game is a 1954 automobile.

But there's a chance Carter may win the car, after all. In the series of matches over 13 weeks the bowler with the highest score for three games will win a new car. Carter had a 768 series, shooting 233 and 236 before his sensational third game. Tolle, of Chicago, had scores of 185, 161 and 195 for a 541 series.

In 1878-79 John L. Sullivan fought and defeated five opponents and received a total sum of \$320 for his efforts.

Dodgers Win Seventh Straight Exhibition

By THE ASSOCIATED PRESS

The Brooklyn Dodgers now have won seven straight exhibition games in Florida after dropping their first three. Five of the victories have been against American League clubs.

Walter Alston's men edged the Washington Senators 3-2 Tuesday before some 5,000 top-coated spectators. Brooklyn took a three-run lead in the third inning and that was enough to offset a two-run rally by the Nats in the seventh.

Still, the Dodger players are having their troubles and they claim it's all because of the cold weather.

Furillo Complains

Outfielder Carl Furillo, the National League's batting champion last year, complains "I just can't seem to get loose. My back and shoulders are tighter than a drum."

Jackie Robinson, who sat out the last two games with a stiff knee, says, "This weather is brutal. How can you get ready?"

The Pittsburgh Pirates, aided by Hal Rice's fifth-inning homer, defeated the Boston Red Sox 2-1 before only 582 chilled spectators. The Sox picked up their only tally in the first on a triple by

Gladstone Seniors Top Juniors 66-64

GLADSTONE—Paced by Dick Switzer who dropped in nine swishers from various parts of the floor and added three free throws for 21 points, the Seniors defeated the Juniors, 66-64, in a game that gave fans an idea of what next fall's team may look like.

The game was a benefit for the School Band.

Switzer was assisted by Duane Peterson who got 15 and Joe Corbett who made 13, while for the Juniors John Quinn was high with 18 while Jack Beach had 13.

The grads had a one point lead at the end of the first period but stretched it to 5 at half time, 33-28. In the third quarter the underdogs rallied to cut the margin to 3 points, 45-42, but then the seniors put the pressure on when Quinn and Beach went out of the game on personals and

outscored their opponents 21-12 to make the count 66-54.

With a single exception every player who got into either lineup scored.

In a preliminary between the 8th grade fives of the parochial and public schools, the latter won 30-20.

College Cage Coaches Eye Changes In Rules

By BEN PHLEGAR

KANSAS CITY (AP)—The men who teach basketball in the nation's colleges assemble here today and the No. 1 problem on their schedule is what to do about the rules of the game.

The three-day annual convention of the National Basketball Coaches' Assn. formally opens Thursday.

The coaches make suggestions to the National Rules Committee which meets here this weekend.

Many of the coaches don't like the present rules on fouling and they are convinced the paying customers don't like them, either.

At least two changes will be proposed, one by Eddie Hickey of St. Louis University, president of the association, and the other by Howard Hobson of Yale.

30-Second Time Limit

The Yale coach has a three-point program.

1. A 30-second time limit in which the team with the ball has to shoot for the basket.

2. Two shot penalties on all defensive fouls.

3. Widening of the free throw lane from 10 to 12 feet as now

a slow start, the Hawks picked up steam in the late stages of the regular campaign and played on a par with three other members in the last three weeks of the schedule.

Marquette is an old playoff opponent for Escanaba. Last season the Hawks eliminated the Sentinels in a tight semifinal series that went three games. The Hawks were beaten by the Calumet Radars in the championship playoffs.

If Burt Petaja joins the Hawks for tonight's contest, it will strengthen the club considerably on both offense and defense. He will likely take a wing on one of the lines and may also see defensive action. His addition to the team would also make it possible for one of the regular wings to see action on defense.

Artwich In Goal

The Hawks closed out the season on a bright note by knotting the Calumet sextet 3-3 last Saturday night on Copper Country ice. The Escanaba team played with only 10 men and lost defenseman Hubert Hamilton on a fighting penalty early in the first period.

Ben Artwich, considered the outstanding goalie in the four-team league, will fill the nets for the Hawks in the playoffs. He has been spelled in recent games by young Mike Goymerac and should be at peak efficiency.

Remainder of the Hawk lineup will be intact and all regulars are in good physical condition.

Gavilan Feels Sorry For Champ Bobo Olson

By TOM BRANAGAN

CHICAGO (AP)—You get the impression that Kid Gavilan, maybe the best fighter in the world, proud for pound, feels a little sorry for Bobo Olson, because Bobo has to fight him.

"He's nice fellow," said the Kid on arriving in Chicago Tuesday night for a two-day round of ceremonies. "I have no hard feeling for him."

"I'm Real Fighter"

"I'm gonna lick him, though. I'm real fighter, you know. Bobo, I think he punches not very good."
